RE: ML 46493 and ML 46494--BSLS; Sevier County, Utah

Dear Lessees:

It has been over one year since you submitted a notice of intent to commence mining operations upon the lands within the above numbered leases. At that time you were advised that a cultural resources survey and a lease performance bond must be completed before the Trust Lands Administration will grant you permission to commence the proposed mining operations. Since you have taken no action to complete these requirements during the past year you are hereby advised that your notice of intent filed with the Trust Lands Administration is considered inactive.

It will be necessary for you to file a new notice of intent with the Trust Lands Administration at least 60 days prior to commencing any mineral exploration or mining operations upon the lands within these leases. Please contact me immediately if you have any questions in this matter.

Sincerely,

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST

JTB/tdw
